Date: 6<sup>th</sup> of June 2023

To,  
Chief Minister Uttar Pradesh  
Lucknow (U.P.)

**Sub: Nomination of President of UPAA in High Level Working Committee of Awas Bandhu**

Hon'ble Sir,

With due respect, I would like to bring into your kind notice that the U.P. Architects Association (UPAA) is a registered society under the Societies Registration Act 1860. UPAA is the parent body of all the Architects Associations in UP. There are about twenty working chapters in Uttar Pradesh, which are the constituent of UPAA. UPAA plays an important role in the field of Architecture & construction, promotion of industrial development, framing of by-laws, transportation planning, urban designing etc. As you are well aware, Architects are responsible for designing and overseeing the construction of building and structure that are safe, functional, and aesthetically pleasing. UPAA is the organisation which represents the interests of Architects and promotes the advancement of the profession. There are about one thousand Architect members of UPAA at present. One of the key roles of UPAA is to promote high standards of professionalism and ethical conduct among its members. UPAA plays an important role in advancing the knowledge and skills of its members. It helps to ensure that Architects are up to date on the latest developments in their field and are able to provide the highest level of service to their clients. Its main motive is to provide the facilities to General Public through Architects.

Master planning describes every little aspect since it entails creating a framework for the whole project. The development of the city is something that architects are always working on. They frequently have to deal with urban planning-related issues such as landuse, as well as issues including traffic, garbage disposal, rainwater harvesting, sewerage, water supply, landscaping, proper electrification, LED street lights, functional traffic lights, and CCTV

General Secretary

(closed-circuit television) cameras. Architects are required for the development of spatial and environmental components. In this context, architects have a duty to assess, design, and manage resilient built environments that can more easily absorb and recover cities from various calamities and can better adapt to environmental circumstances. A master plan should be created using a pragmatic approach. There is a potential that the master plan may take a more pragmatic approach if you incorporate local architects in its preparation.

Awas Bandhu is an apex institution under the Housing & Urban Planning Department to oversee the performance of housing sector and coordinate the activities of subordinate departments/agencies viz Town & Country Planning Department U.P., Development Authorities and U.P. Housing & Development Board.

Being the parent body of all Architects Associations in UP, we request you that the President of UPAA be an ex-officio member of both Awas Bandhu & Udyog Bandhu. As you are aware, the UPAA is a professional organization that represents Architects throughout the Uttar Pradesh. It plays a critical role in shaping the built environment of our cities and towns, and its expertise and input would be invaluable to these two organizations. The inclusion of UPAA in Awas Bandhu would be of immense value. They could provide valuable insights into the design and construction of housing projects, as well as offer recommendations on ways to improve the affordability and accessibility of housing for all citizens. Besides it UPAA can play a vital role in shaping the industrial landscape of the state by providing design expertise to help create sustainable and efficient factories and manufacturing units.

**This is to bring into your kind notice that the Constitution of Awas Bandhu has the provision to nominate the President of U P Architects Association as high level working committee member. We have several requests to kindly nominate the same but has not accepted so far.**

Keeping in view the objectives & functions, we believe that including the President of UPAA in Awas Bandhu would be a positive step towards promoting sustainable development in Uttar Pradesh. I urge you to consider this request and take appropriate action to ensure that their expertise is utilized to its fullest potential.

**Thanks & regards**
